Privacy Research and Data Responsibility Research Coordination Network (RCN)

PI: Jules Polonetsky, Future of Privacy Forum

The Future of Privacy Forum (FPF) has received a two-year grant from the National Science Foundation to establish a Privacy Research and Data Responsibility Research Coordination Network (RCN).

The RCN will produce a community of academic researchers and industry practitioners to promote discussion of issues under the National Privacy Research Strategy (NPRS), supporting action toward technological innovation while protecting individual privacy.

At a time when industry actors are custodians of a wide range of consumer data, collaboration between industry and academia is critical to making practical privacy progress.

RCN Collaboration

Industry Chief Privacy Officers

Academic Researchers

Approach and Issues

Events and Communications

• Privacy Papers for Policymakers

• FPF-Capital Area Academic Network (FPF-CAN)

• Privacy Scholarship Reporter

• Cross-sector workshops and symposia

Multi-disciplinary Research

• Transparency of data collection and use

• De-identification

• Privacy risks of analytical algorithms

Progress to date:
-- De-Identification Symposium with Vrije Universiteit Brussel, Nov 2016
-- Privacy Papers for Policymakers on Capitol Hill, January 11, 2017
-- Symposium on Civil Rights and Data (upcoming March 2017)
