

Postdoctoral researcher position at North Carolina State University

Submitted by Anonymous on Wed, 09/10/2014 - 8:34pm

Candidates sought for a postdoctoral position in the Science of Security group at North Carolina State University. The ideal candidate has a strong background and interest in software security and empirical software engineering. Exceptional candidates will be considered in other areas.

All candidates must obtain a Ph.D. in computer science or related fields before starting the position. They must communicate effectively, be fluent in written and spoken English, and be able to mentor junior researchers. The selected candidate will receive competitive compensation and benefits. Spring 2015 start date is preferred, though the chosen candidate can begin immediately. The initial appointment will be for 1 year, extensible for up to 2 additional years by mutual agreement.

Interested candidates should submit a CV, research statement, and 3 references to both williams@csc.ncsu.edu and singh@csc.ncsu.edu. Candidates will be screened immediately and continue until the position is filled.
