

NSA Releases Science of Security Issue of The Next Wave

Submitted by [AdamT](#) on Thu, 12/03/2015 - 3:12pm

The National Security Agency has released a new issue of its unclassified research magazine, The Next Wave, that is focused on Science of Security research. Many of the articles included were written by or about SoS research projects. It is a great read and way to find out more about SoS research.
