

Mitigating Adversarial Machine Learning Meeting - Fall 2018

Submitted by [Katie Dey](#) on Sun, 06/17/2018 - 11:08pm

A one day invite-only meeting on **Mitigating Adversarial Machine Learning** will be co-located with the Fall 2018 C3E Workshop. The meeting will be held September 20, 2018 in Atlanta, Georgia at the Atlanta Marriott Midtown Suites.

The objective of Mitigating Adversarial Machine Learning (MAML) is to enable system architects to design and evaluate different ML decision support implementations against adversarial ML vulnerabilities through the development of a simulation language and "plug and play" experimental framework and influence analysis.

A room block has been reserved at the Atlanta Marriott Suites Midtown. Limited support for travel is available for non-government participants, if needed. Please find more information on the [venue page](#).

Please enter your registration code below to begin the registration process. If you cannot find your code, or if you have any questions, please contact the organizers at maml@cps-vo.org.

Registration code: * _____

Please enter the registration code provided in the invitation letter. If you cannot locate the code, contact the organizers at maml@cps-vo.org.
