

Call for Special Sessions: Resilience Week 2019

Submitted by Anonymous on Tue, 04/02/2019 - 11:12am

CALL FOR SPECIAL SESSIONS - Deadline Approaching Quickly!

[Resilience Week 2019](#)

- Submission Due: APRIL 22
- Acceptance Notification: APRIL 29

Large disasters may ripple across cities, regions or even nationally through interconnected critical infrastructure systems. Right now, many of those connections are invisible, making it very difficult to put effective mitigation strategies in place. Critical links are often uncovered too late, causing greater impacts to infrastructure and challenging recovery efforts on the ground. Join us for the Resilience Week symposium to discuss how private and public partners can work together to ensure a secure and reliable flow of energy across the nation.

Topical Areas: Elements of Resilience and Complex Environments

[DOWNLOAD TEMPLATE \(SUBMIT TO RESILIENCEWEEK@INL.GOV\)](#)

Within all topical areas, participants interested in exploring new interdisciplinary approaches or perspectives on resilience are encouraged to complete the special session template with title, paragraph overview, topical areas and chairs.

Sessions or full tracks may be proposed, including invited and paper presentations, panels and facilitated discussions.
