## Call for Workshop Proposals

### ICDCN 2020 Call for Workshop Proposals

21st International Conference on Distributed Computing and Networking (ICDCN 2020)

Jan 4-7 2020

Kolkata, India

ICDCN is a premier international conference dedicated to addressing advances in Distributed Computing and Communication Networks. Over the years, it has become a leading forum for disseminating the latest research results in these fields. The 21th edition of this conference will be organized in the Department of Computer Science and Engineering and School of Mobile Computing and Communication, Jadavpur University, Kolkata, India. Kolkata is not only the home of many industries in India in both public and private sector, but also a major tourist attraction. One can also enjoy the other tourist attraction points around Kolkata.

ICDCN 2020 will be organized in two tracks: Distributed Computing and Networking, and will comprise of a highly selective technical program consisting of refereed regular and short papers, panel discussions as well as focused workshops on emerging topics. See Call for Papers for more details. Conference proceedings will be published in the ACM Digital Library.

Selected papers will be invited for fast-track publication in one or more appropriate high-quality journals. The conference will consider awarding a Best Paper Award, independently for each track.

The 21st International Conference on Distributed Computing and Networking (ICDCN 2020) plans to host several workshops. The Organizing Committee invites proposals for one-day or half-day workshops affiliated with the conference. Workshops should emphasize current topics of interest to the conference and the community which are Distributed Computing and Communication Networks. Workshops should emphasize current topics of interest within the broader areas of Distributed Computing and Communication Networks. Some of the topics of current interest are mentioned below, though this list is by no means exhaustive:

- Distributed Data-Analytics
- Blockchains
- Distributed AI/ML
- Cyber-security
- Disaster response
- Smart healthcare
- Energy and Sustainability
- Cyber-Physical systems
- Distributed game theory
- Biological Distributed Algorithms
- Social Network Analysis and Mining
- 5G and beyond Networks
- Next generation internet

The workshops may include a mix of regular papers, invited presentations and panels that encourage the participation of attendees in active discussion. The purpose of these workshops is to provide a platform for presenting new ideas in a generally more focused area than the main conference. The objective of these workshops is to enable stimulating discussions on state-of-the-art, emerging, visionary, and perhaps controversial topics. Workshops should be organized to promote such lively interaction. Plans to promote interaction and discussion should be clearly addressed in workshop proposals. It is expected that workshop papers will be published along with the main conference papers as part of the ACM International Conference Proceedings Series (ICPS) and will be indexed by the ACM Digital Library.

The details of this page can be found at:

## 2019 Workshops Overview

1. Computing and Networking for Smart Healthcare (CoNSH)
2. International Workshop on Emergency Response Technologies and Services (EmeRTeS)
3. International Workshop On Networking Women In Distributed Computing And Networks (NWDCN)
4. The 8th International Workshop on Computing and Networking for IoT and Beyond (ComNet-IoT 2019)
5. International Workshop on Analytics for Security in Cyber Physical Systems (ASCPS - 2019)
6. Cloud based Health INformatics (CHIN-2019)
7. Algorithms and Architectures for Distributed Data Analytics (AADDA)
8. Pervasive Security for Smart Connected Communities (PerSeC3 Workshop)

The details of these workshops could be found on ICDCN 2019 page:

<https://nam04.safelinks.protection.outlook.com/?url=https%3A%2F%2Fevents.csa.iisc.ac.in%2Ficdcn2019%2Fannounce-que...>

## Format of the Proposal

Each workshop proposal (maximum 5 pages) must include:

- Title of the workshop
- Description of the technical issues covered, emphasizing the timeliness of the proposed workshop (1 page maximum)
- Workshop Organizers (names, affiliation and contact information), limiting up to 2 workshop chairs for half-day workshop and 3 workshop chairs for full-day workshop
- A short biography of the organizers (up to 200 words)
- Names of potential participants, such as program committee members and invited speakers (indication that speakers accepted to participate is a plus)
- Planned format of the workshop, including:
  - Duration of the workshop: Half-day, Full-day and tentative schedule
  - Preferred day of workshop: Before or after the conference
  - Number of refereed papers, hot topic sessions, keynotes, panels
  - Unique, creative and novel workshops formats are strongly encouraged
  - Draft Call for Papers
  - A description of the publicity and promotion plan
  - Workshop potential website address (if available at the time of the proposal - will be required later if the workshop proposal is accepted)
  - If appropriate, a description of past versions of the workshop, including the number of submitted and accepted papers, number of attendees, etc.

Please address questions to Workshop Chairs:

- Sathya Peri, [sathya\\_p@iith.ac.in](mailto:sathya_p@iith.ac.in), and Sipra Das Bit [sdasbit@yahoo.co.in](mailto:sdasbit@yahoo.co.in).

## Submission Instructions & Timelines

The proposals can be submitted on EasyChair page here:

<https://nam04.safelinks.protection.outlook.com/?url=https%3A%2F%2Feasychair.org%2Fconference%2Fannounce-...>

Timelines for the workshops:

- Proposal Deadline: 1st July 2019
- Notification of Selection: 10th July 2019
- Opening of Workshop Papers for Acceptance: 15th July 2019
- Decision on Acceptance/Rejection of Workshop Papers: 5th October 2019
- Camera-Ready Papers Version Due: 20th October 2019
