NYU Cluster hire of Tenure Track Faculty in Urban Science and Engineering

Submitted by jpbello on Thu, 11/21/2019 - 10:50am

Dear CPS community,

The NYU Tandon school of engineering is glad to announce a search for a new cluster of tenure-track faculty in urban science and engineering -- See the announcement below.

If you are at the CPS PI meeting, and want to find out more, please come by and talk to me during the coffee break or at poster # 224.

best,

Juan

NYU Cluster hire of Tenure Track Faculty in Urban Science and Engineering

The New York University (NYU) Tandon School of Engineering invites applications for a cluster of tenure-track faculty positions to start in Fall 2020 at the rank of Assistant Professor. The focus of these positions is urban science and engineering, with each position a joint appointment between two of the following units: the Center for Urban Science and Progress (CUSP), Civil and Urban Engineering (CUE), Computer Science and Engineering (CSE), Electrical and Computer Engineering (ECE), and Technology, Culture and Society (TCS). We seek candidates interested in fostering a highly interdisciplinary and collaborative environment for teaching and research, who can contribute to methods and foundational knowledge in their disciplines with a strong focus on high-impact urban applications. A doctoral degree in an applicable field is required.

NYU values equity, diversity, and inclusion and especially encourages candidates from historically underrepresented groups to apply.

Click Here to Apply For This Opening:

https://apply.interfolio.com/68904

The deadline for submitting applications is December 2, 2019.
Juan Pablo Bello
Professor of Music Technology, Computer Science & Engineering, and Electrical & Computer Engineering
Director, Center for Urban Science and Progress (CUSP) and Music and Audio Research Laboratory (MARL)
