30th International Conference on Field Programmable Logic and Applications (FPL 2020)

The International Conference on Field-Programmable Logic and Applications (FPL) was the first and remains the largest conference covering the rapidly growing area of field-programmable logic and reconfigurable computing. During the past 29 years, many of the advances in reconfigurable system architectures, applications, embedded processors, design automation methods and tools were first published in the proceedings of the FPL conference series. The conference objective is to bring together researchers and practitioners from both academia and industry and from around the world.

Topics (related to Field-Programmable Logic and Applications):

- Architectures and Technology
- Application Acceleration
- Programming Models and Languages
- System Software and Environment Support
- Design Methods and Tools
