2018 Music City BEST Key Information Sheet

Extremely Important Message to the Students

Music City BEST believes it is very important for students to acknowledge and appreciate the help and work provided by your teachers and mentors. Therefore, you have the opportunity to nominate them for the BEST Teacher and BEST Mentor Awards. Music City BEST has decided to require each team to submit AT LEAST ONE nomination. It can be for either the BEST Teacher or BEST Mentor Award. We certainly encourage you to submit nominations for both awards, but we are requiring at least one. If a team does not submit at least one nomination, Music City BEST will deduct five (5) points from the Spirit and Sportsmanship component of the BEST Award. Your nominations are to be submitted using “Mentor Nominations” and “Teacher Nominations” buttons on the left side of the musiccitybest.org website.

Practice Day

Practice Day will be an opportunity for teams to practice on the competition playing field. From 10:00 a.m. until noon on Saturday, October 13, the competition playing field will be set up at the Student Activities Center at Lipscomb University

easyCv6 for Coretex License Key

This year, we are using EasyCV6 with a pooled license shared by all BEST teams. This license is good for 150 days from the time of installation and will expire on 1/31/2019 regardless. The license number is:

AWAE-WVW8-5L74-CUP5-8XY7-SH3N-S9K6-DAVZ

All other license key information is provided in the VEX and Software section of this team notebook.

BEST National Registry

BEST Robotics now requires all participating teachers, students, and mentors to register in the BEST National Registry. Participants need to know the hub they participate in and their assigned team number. Teams that supply proof of the team members’ registration (e.g. team roster with order numbers per team member) will receive 5 bonus points in the Engineering Notebook “Support Documentation” section.
