Iver AUV

BlueROV2 ROV

REMUS 6000 AUV

Ok Robots.... but how to escape labeling?

- Self-supervision/ Unsupervised Learning
- Physics
- Simulation

Can simulation  
give us good  
training data?

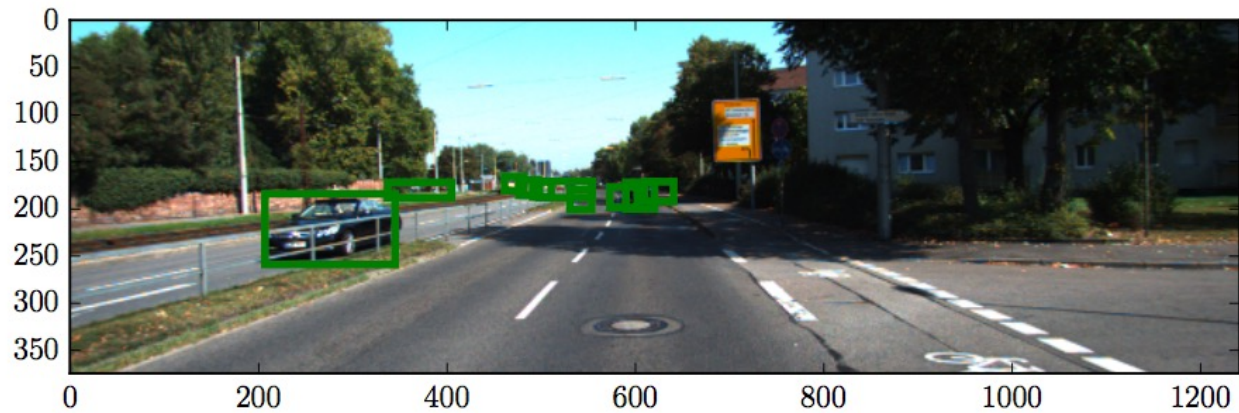

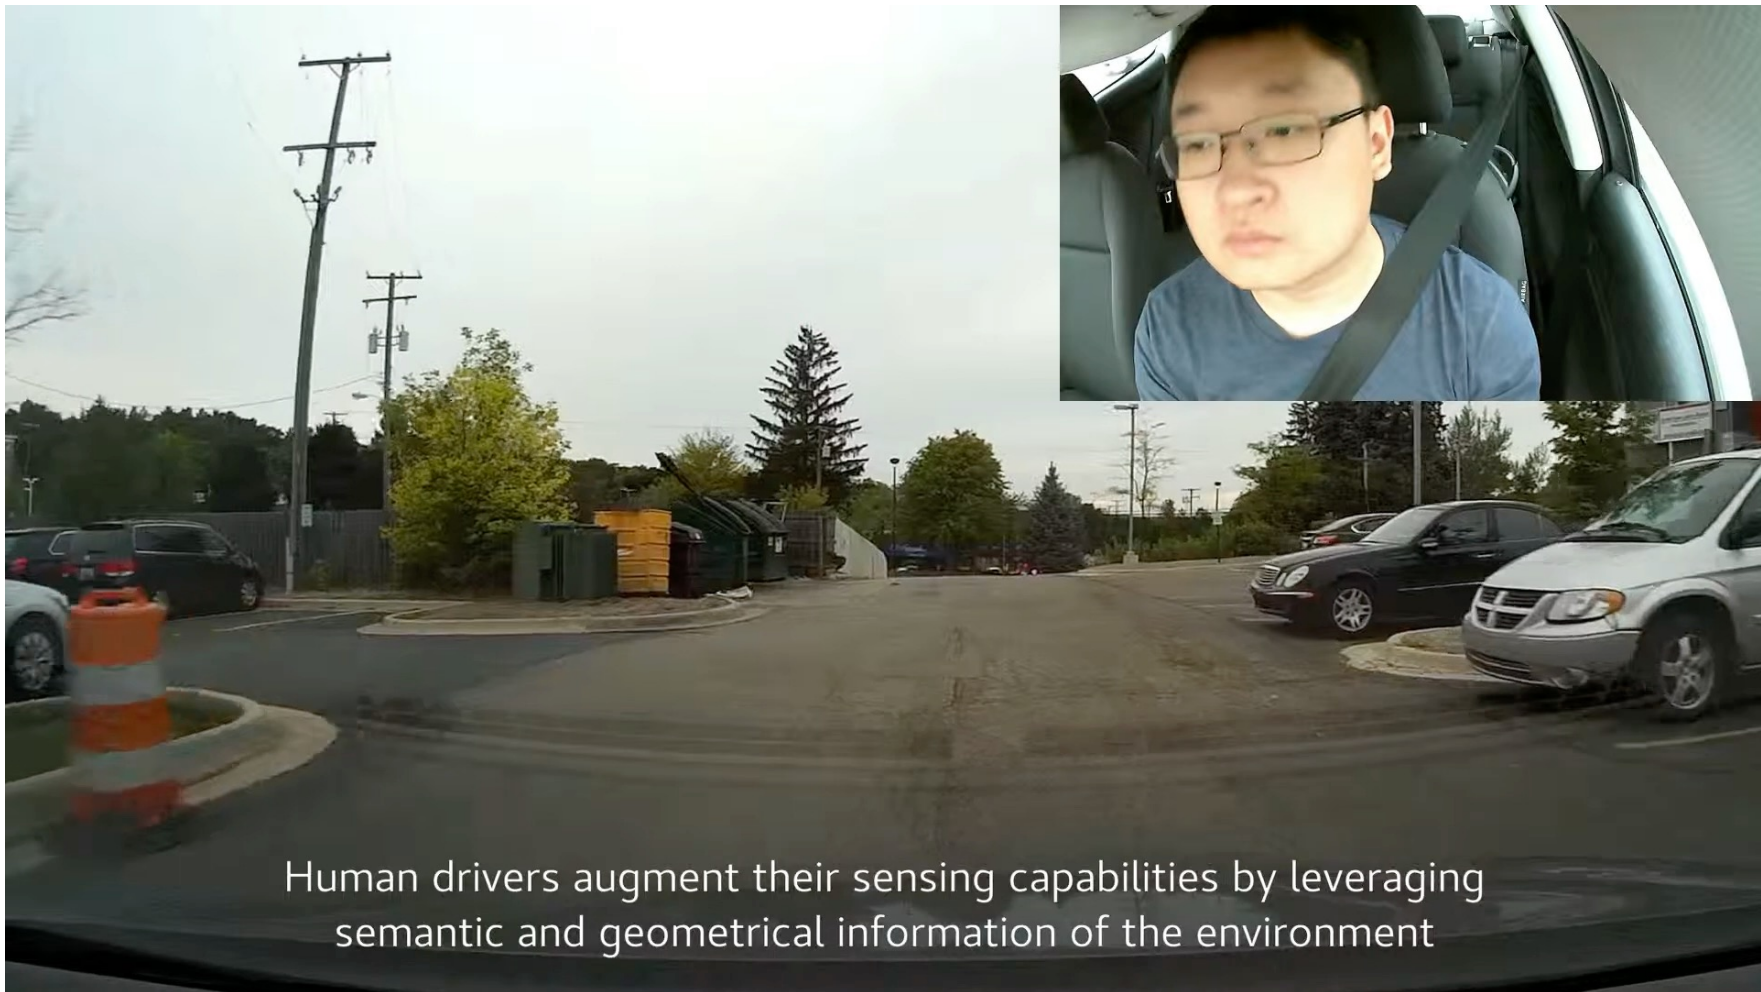

(a) Cityscapes

(b) 200k

Human drivers augment their sensing capabilities by leveraging semantic and geometrical information of the environment

(Toyota Research Institute)

## Water Column Attenuation

$$L = Re^{-b(\lambda)d}$$

## Benthic Reflection

$$L = E \frac{M(\lambda)}{\pi} \cos \theta_i$$

## Water Column Attenuation

$$L = Re^{-b(\lambda)d}$$

## Light Refraction at Interface

Dome viewport

$$f_{uw} = f_{air}$$

Flat viewport

$$f_{uw} = 1.33f_{air}$$

## Lensing Effects

$$E_I = L \frac{\pi}{4N^2} \cos^4(\alpha)$$

## Camera Response

Absorbed photons

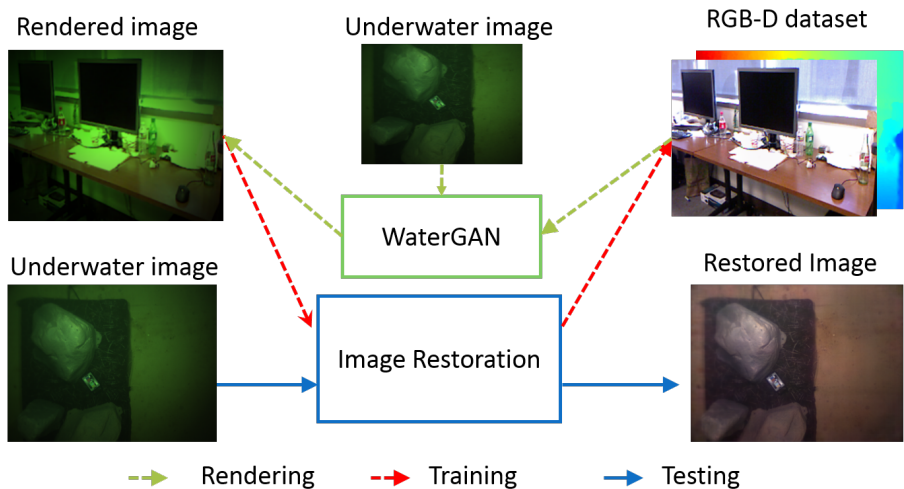

$$\mu_e = \frac{At_{exp}}{hc} \int_a^{\lambda_b} \lambda \phi(\lambda) \eta(\lambda) d\lambda$$

Digital response

$$\mu_y = \mu_{dark} + K\mu_e$$

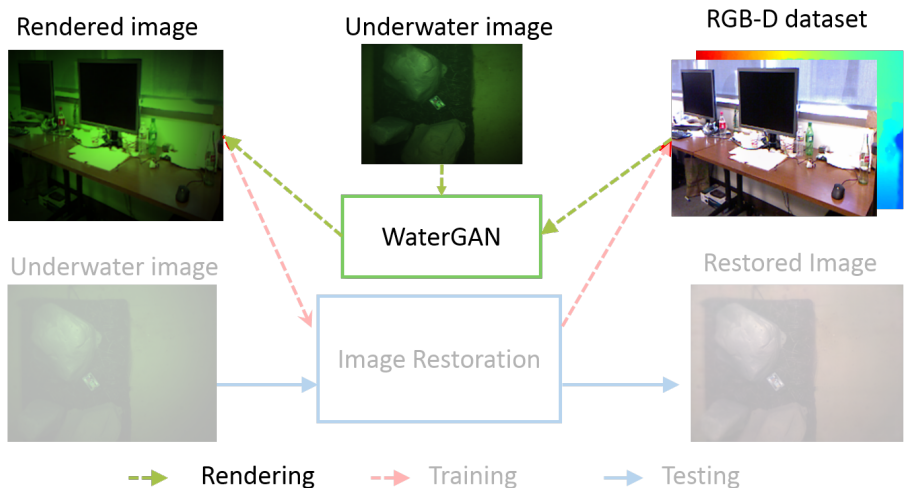

# WaterGAN: Unsupervised Generative Network to Enable Real-time Color Correction of Monocular Underwater Images

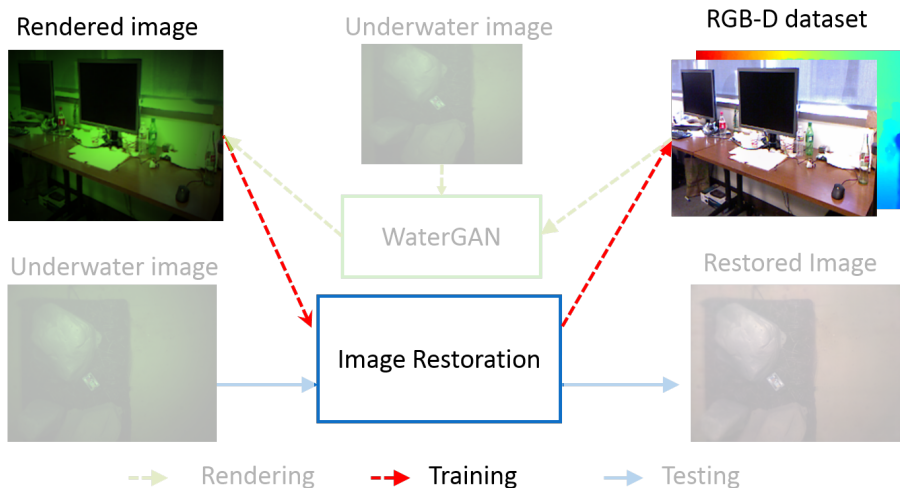

Jie Li\*, Katherine A. Skinner\*, Ryan Eustice and Matthew Johnson-Roberson, "WaterGAN: Unsupervised generative network to enable real-time color correction of monocular underwater images." In IEEE RA-L, 2017. \*The authors contributed equally to this work.
